

Directions For Crated Dog Drop Off/Pick Up

After entering the property, proceed as directed on map to wait your turn for space near the dog holding trailer.

After offloading your crated dog, you will drive on the same road to return to the parking lot or leave the property.

You will **NOT** be waiting in the same line as exhibitors waiting to offload their booth/product.

There will be signage and security at each location to direct you.

Groomers with dogs on a leash may enter through main doors at Hall A.
